STREET STORIES

The rainfall of this forenoon, registered at the local observatory at noon today, was 0.73 inches.

Roy G. Cagle of Little Rock, Ark., is in the city visiting with his sister, Mrs. C. W. Towell. He will remain here until next Tuesday.

George Hawkins, porter of the Elks club, who was shot through the head a few days ago, is getting along nicely, and if nothing more intervenes than at present, he will be at work again in a few days.

Billy Baker of Shawnee is in the city today. Mr. Baker was formerly a resident of this city, and, with Mrs. Baker, now Miss Fay Burnitt, are here on their vacation. Mr. Baker is employed by the Wells Fargo Express company at Shawnee.

George Hawkins, the negro porter at the Elks club, who was shot through the head one day last week with a .38-calibre pistol, walked from his home to the Hardy sanitarium last night for a treatment. He will be able to resume his duties in a few days more.

The checker champion at the fire station is Uncle Bob Riner, who has been the official coach of the fire boys for some time. Anyone wishing to match a game can be accommodated either by the old master or one of his pupils.

The Chamber of Commerce is preparing for the county exhibit to be taken to the state fair this fall, and anyone having exceptionally fine fruit or vegetables are requested to bring the same and receive the thanks of the body, and due credit for their contribution.

The peach crop is nearly ready to move, and the growers here expect to ship over fifty cars from their orchards this season. The peach orchards of this vicinity have been sadly neglected, and the owners and others are just beginning to realize their true value.

Miss Mabel Matthews who has been secretary to the president of the Oklahoma Woman's College at Chickasha, is here visiting with her mother, Mrs. A. D. Matthews on North Washington street. After a visit here of ten days, she will go to Arizona to visit for a time with a brother she has residing in that state.

Mr. and Mrs. George M. Henley are building a handsome two-story bungalow on C street, S. W., adjoining the A. C. Cruce home on the south. Work has been in progress for several days, and the home will be finished about eight weeks from now. The weather has to some extent delayed construction work.

Kelly Brown, who has recently moved from this city to Muskogee, where he has formed a partnership with N. E. Maxey for the practice of law, writes that he is well pleased with his location and expects to make good there. Incidentally, he has ordered The Daily Ardmoreite forwarded to him in order to keep up with current events in his old home town.

P. E. Parker of the Palatine Oil Company has recently made a trip through the country to the southeast and to the southwest of Ardmore. He says the corn crop is as fine as he ever saw and some of the fields promise a greater yield than he ever saw before in any country. He was especially pleased with the corn on one farm near Lebanon, in Marshall county, which in his opinion will make 100 bushels to the acre.

H. S. Suggs was here yesterday evening from Berwyn. Mr. Suggs says the corn in the Washita bottom is very fine, alfalfa is growing fast, wheat and oats have made a good yield and if weather conditions will permit the threshing of the grain, that the farmers will soon have plenty of money. The continuous rains look bad for the saving of the small grain crop.

Mrs. Burney resides near Red river and the Burney farm which is one of the best known farms in southern Oklahoma, lies near that stream. Push Further Into Poland

London, July 2.—The northward drive of the Austro-German armies from Galicia into Poland is daily becoming more formidable and England is puzzled as to whether they propose to make their main effort in this direction instead of maintaining a concentrated offensive to the eastward to force the Russians out of the southeastern tip of Galicia.

Tom Echols, who is engaged in the grocery business in this city, also operates a farm northwest of the city a short distance. He raised 25 acres of wheat this year but the rains are not worrying him. As the grain was cut on his farm he had it securely stacked, so it is being protected from the water, and will be ready to thrash when the rainy season has ended.
